

# CM SERIES

## mATX CHASSIS

Optional

## Features

### Powerful Cooling Solution

Up to five fans and two water cooling radiators can be flexibly used on the top, front, and rear panels to direct airflow and greatly enhance cooling performance.

### High Performance GPU Scalability

Features up to 4-slot cards with a maximum length of 355 mm and a width of 160 mm, supporting higher-performance system configurations.

### Quick Release Dust Filter

The front, top, and bottom ventilated areas are equipped with various quick-release filters to effectively reduce dust. The tool-free design allows for simplified maintenance.

### Cable Management

A spacious 20-30 mm cable management area is provided to neatly and quickly assemble your system.

### Dual-Material Side Panels

Equipped with dual steel side panels and optional tempered glass side panels. The two panels are interchangeable to correspond to anyone's preference.

### Side panels with thumb screws for easy assembly.

### Easy Access Upper I/O
